Premium Quality Wrapping Tissue

Our Environmental Policy

We are the leading global supplier of lightweight papers and decorative packaging, dedicated to providing the highest quality Tissue Paper in the most responsible “earth-friendly” manner. We are committed to our customers, our employees, and the environment, and utilize **certified fiber** from responsibly-managed forests and **recycled fibers** to create a premium product that is **100% recyclable**.

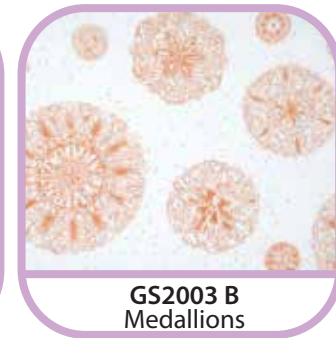

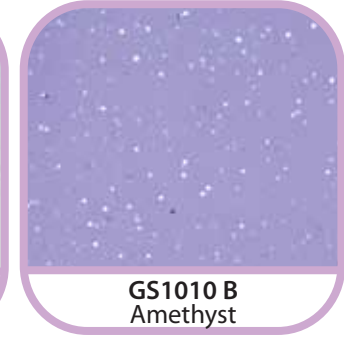

Our Accomplishments

- Chain-of-custody certifications for use of fibers coming from responsibly managed forests.
- Installation of Wood-fired Boilers using 100% biomass energy utilizing recycled fuel that is Greenhouse Gas Neutral, resulting in oil consumption reduction of over 1.5 million gallons annually.
- On-site Wastewater Treatment Facility that reduces contaminants by over 99%, recycles 30% internally, then returns it to the Otter River clean and ready for the next use downstream.
- Established a Landfill Gas Generation Project that produces enough electricity to power 270 homes.
- Established Otter Farms, a 300 acre composting facility that eliminates our residual paper fiber from the solid waste stream.
