PPAIUPIC:TKSORGS

ASI#88200

I am not a plastic cup.

This cup is made of a plant resin that can be commercially composted to help grow new crops.

At TK our desire is to create easy, beautiful and affordable solutions to your customers' branding needs. Even in our fast paced environment it's still important to gather for a nice meal or beverage. With our products on the table, branding is part of that enjoyable experience. We offer you the best choices for custom printed napkins, cups, plates, coffee sleeves, coasters and many other products at a reasonable price. We have rigorous quality standards, unlike many competitors. Most of our products are made in the US and printed in New England where we appreciate the importance of both history and innovation. Please call, email, text and keep in touch!

Sincerely yours,
Karen J. Laufer, President
